Title: INTEGRATION OF WIRELESS AND EXTERNAL COMPUTING DEVICES

Application Number: 10/662,639

#### **Amendments to the Specification**

In the Abstract, please delete the entire paragraph of the Abstract, which reads

"The wireless device may include logic that enables the wireless device to interface with the external computing device, and rule logic to direct handling by the external computing device of call events of the wireless device."

and insert in place thereof the following paragraph:

"Information is received from a caller via a wireless device and communicated to an external computing device. Contact information for the caller is located using at least one of a name and phone number of the caller, and when the contact information for the caller is located, it is displayed on a display of the external computing device."
